

**EMS Campus™** seamlessly integrates all the facets of campus-wide space management, including academic scheduling and event management.

### Streamline academic scheduling

Simplify the academic scheduling process, both for registrars and department heads

### Optimize the utilization of rooms and resources

Make the most of your valuable space, equipment, etc.

### Manage billing and accounts receivable

Easily track and report on event-related finances

### Seamless SIS integration and detailed reporting

Stay up-to-date with auto-synchronization for published terms

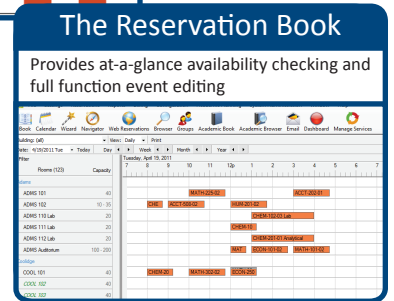

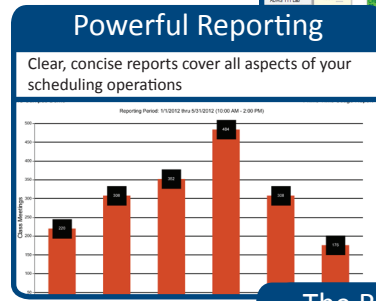

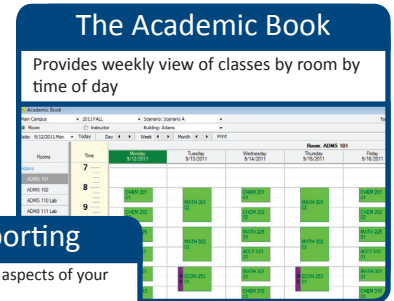

### Flexible and highly customizable

Work in a system that mirrors your business processes and terminology

### Online community access

Make facility and event information available to your campus 24/7

### Streamline academic scheduling

Work more efficiently and use the time you save to tend to other tasks

- Enable an online, paperless planning process
- Create and test multiple course/room optimization scenarios
- Schedule courses *and* final exams

### Optimize the utilization of rooms and resources

Standardizing on one system for both your meeting/event management and academic scheduling is one of the best ways to ensure that you get the most out of your valuable resources (rooms, equipment, etc.) Check out a case study on how one university is reaping the benefits of a unified system: [www.dea.com/StudyUnifying](http://www.dea.com/StudyUnifying)

### Manage billing and accounts receivable

Generate invoices and track associated deposits, payments and adjustments

- Supports a variety of pricing methods (flat rate, hourly by event time, etc.)
- Automatically calculates taxes, gratuities, service charges, etc.
- Produce customer Statements and an Ageing Report to manage your receivables

### Optional Modules for All-In-One Integration

Below are some of the more commonly used optional modules.

#### Video Display Interface

Keep everyone in the know by providing data to digital signage systems.

#### Microsoft Exchange® Integration

Simplify meeting planning by showing room and attendee availability and sending meeting invitations.

#### Integrated Authentication

Streamline web account maintenance and enable single sign-on.

For a complete list and details on each, visit:  
[www.dea.com/OptionsCampus](http://www.dea.com/OptionsCampus)

**Seamless SIS Integration**

- Interfaces with either commercial or custom SIS/ERP systems
- Powerful two-way integration with auto-updating
- Report on seat fill percentage, time block availability, utilization trends and more

**Flexible and highly customizable**

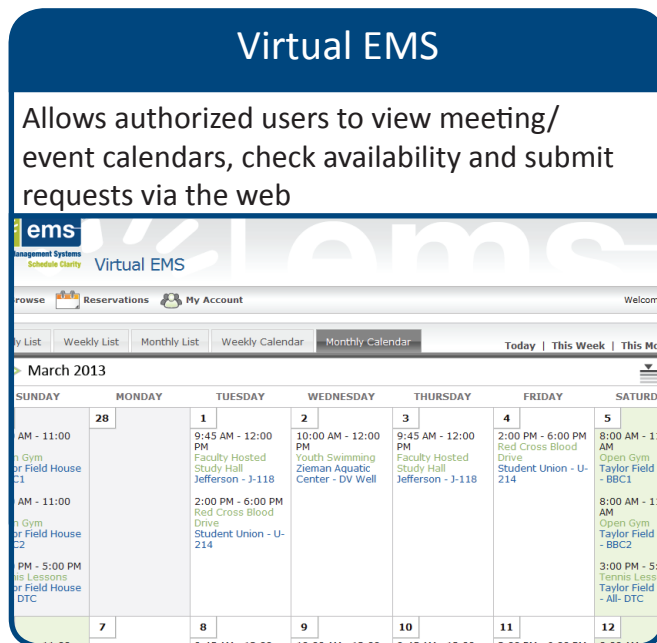

Software that conforms to your way of doing things rather than the other way around!

- Define your data (rooms, event types, user defined fields etc.) to match your scheduling practices and record the information you need
- Create customized user profiles to accommodate complex security needs

**Online community access with Virtual EMS™**

Virtual EMS™ is the customer-facing web application that makes room availability and event information accessible online.

- Authorized users can submit requests or create room reservations and schedule meeting-related services online
- Use Virtual EMS from the web browser on your computer or from mobile devices

**Professional Services**

From system configuration to software training, we have the experience and the resources you can call on to get your project off to a flying start.

*"I just wanted to take a few moments to let you know how phenomenal your support team is. I have worked in the IT industry for over 10 years and have never encountered such a professional support format. They should be the model for all IT organizations."*

Ryan S., Senior Specialist, IT Support

**Annual Service Agreement**

The Annual Service Agreement (ASA) provides toll-free access to our knowledgeable Denver-based Customer Support team, free software updates and new versions of EMS Campus, and a User ID for the EMS Online Support Center.

**EMS CAMPUS™ ADDITIONAL FEATURES**
